SCHOOL CONTEXT OVERVIEW

School number: 1196
School name: Fregon Anangu School

Fregon Anangu School has a steady enrolment of around 40 students. The school is staffed by the Principal, Anangu Coordinator, four Teachers, Pre-School Coordinator, and Family Centre teacher along with four School Services Officers & six Anangu Teachers. The Anangu teachers take a lead role in Pitjantjatjara and the Keeping Safe curriculum.

Fregon features an impressive preschool/family centre which is the newest on the APY lands. The preschool is central to our focus on early years to build a successful learning culture now and into the future at Fregon. We are excited by the prospect of our preschool being reviewed against the NQS. Fregon children have benefited from a diverse education that has culminated a very successful relationship between the Trade Training Centre and our past senior classes.

In 2016 Fregon is continuing our journey to implement the Lands Partnership Aus. Curriculum as well as reinvigorating our numeracy block in every class.

The community has a proud sporting heritage being home to the Fregon Bulldogs, and the art & cultural heart of the APY lands.

Families and children enjoy a strong relationship with Victor Harbour School going back 35 years – keeping this relationship strong with an exchange each year. Our music program is provided by Chris Fisher and Smart Start Art program, and the students enjoy a visit for a week or two each year from Bikes Palya also.

Fregon Anangu School provides a supportive and safe environment to enable children to reach their full potential. It has forged associations and links with other schools within the partnership and look to consolidate and extend these relationships in 2016.
